

## ABOUT US

At OnPointe, we don't just provide world-class care, we also bridge gaps. Excellence in post-acute and transitional care is not merely about the patient's next step, it's about individualized, empowering care. The where and what of the care we provide—our people, our processes, and our protocols—all revolve around the who. Regardless of where a patient's next steps lead, OnPointe ensures that they are in the most appropriate and compassionate hands.
